

# PHAN HOANG PHU

## **Mobile Developer**

Sex: Male

DOB: Oct 05 1990

Email: [hphu90@gmail.com](mailto:hphu90@gmail.com)

Mobile: +84905 566500

Address: K82/21 Dung Si Thanh Khe St, Thanh Khe District, Da Nang City

## Experience

- **08/2022 – 06/2024:** Senior Mobile Developer at [Multiverz](#).
- **10/2019 – 05/2022:** Senior Mobile Developer at PHP Team.
- **12/2015 – 10/2019:** iOS Developer at Gola Co, Ltd.
- **5/2013 – 11/2015:** iOS Developer at Data Fountain.

## Skills

- **Mobile Development:** Senior mobile developer with extensive experience in Flutter, Kotlin, Objective-C, and Swift 5.
- **Programming Languages:** Proficient in PHP and Python.
- **Design Tools:** Skilled in Photoshop, Figma, and Adobe Illustrator.
- **App Deployment:** Experienced in solving complex problems and successfully submitting apps to the Apple Store and Play Store.
- **Problem-Solving:** Strong analytical and troubleshooting skills, ensuring efficient and effective solutions to development challenges.

## Projects

### Strategy Street

Strategy Street is designed for high-level business executives and policymakers to connect with peers for strategic advice and professional development. This minimalist app enables text messaging, video and audio calls, knowledge sharing, submission of briefing requests, voting on requests, and topic briefings by industry experts. Developed by professionals from diverse fields, Strategy Street addresses issues common in other networking apps, such as unmanageable networks and information overload. By limiting group sizes to 150, based on Robin Dunbar's research, Strategy Street ensures high-quality interactions and demand-driven knowledge sharing, enhancing the value of strategic advice and professional connections.

- Project size : 6 months

- Responsibility : Developer
- Skillset used : Flutter, iOS, Android
- Link on iOS: <https://apps.apple.com/app/strategy-street/id1613119782>
- Link on Android: [https://play.google.com/store/apps/details?id=com.app.strategy\\_two](https://play.google.com/store/apps/details?id=com.app.strategy_two)

## Pythonify - Python Coding IDE

Pythonify is a versatile application designed for both iOS and Android, allowing users to compile and build Python code directly on their mobile devices. With Pythonify, you can write, test, and run Python scripts without needing a computer, making it ideal for coding on the go. The app features an intuitive interface, syntax highlighting, and a variety of libraries to support your development needs. Whether you're a beginner learning Python or an experienced developer seeking a mobile coding solution, Pythonify provides the tools you need to create and execute Python code seamlessly on both iOS and Android platforms.

- Project size : 6 months
- Responsibility : Developer
- Skillset used : Flutter, iOS, Android
- Link on iOS: <https://apps.apple.com/vn/app/pythonify-python-coding-ide/id6478315305>
- Link on Android: [https://play.google.com/store/apps/details?id=com.pythonify.python\\_notebook\\_lite](https://play.google.com/store/apps/details?id=com.pythonify.python_notebook_lite)

## DaNang FantastiCity

Danang FantastiCity application that allows users to find spotlight events, outstanding places and destinations around Danang city. What is more, it can set up schedules for travelers, which recommends them the most interesting and appealing activities and places in hope of introducing the best parts of Danang to visitors. All data on this app alway stored offline. Currently, it is being used in Da Nang City via the DaNang Department of Tourist.

- Project size : 12 months
- Responsibility : Developer
- Skillset used : Swift, iOS, Kotlin, Android
- Link on iOS: <https://itunes.apple.com/es/app/id1104087411?l=en&mt=8>
- Link on Android: <https://play.google.com/store/apps/details?id=com.dnfantastic.android>

## Xhare2U: Transfer my data

Xhare2U is a versatile app that enables seamless file sharing across multiple platforms. With Xhare2U, users can easily transfer files via QR codes or Bluetooth, ensuring a quick and efficient process. The app supports various file types, making it ideal for sharing documents, photos, videos, and more. Its user-friendly interface simplifies the sharing process, while robust security measures ensure that your files remain safe and private. Whether you're sharing files between your own devices or with friends and colleagues, Xhare2U offers a reliable and convenient solution for all your file-sharing needs.

- Project size : 6 months
- Responsibility : Project Manager
- Skillset used : Flutter, iOS, Android
- Link iOS: <https://apps.apple.com/vn/app/xhare2u-transfer-my-data/id6503337813>
- Link Android: <https://play.google.com/store/apps/details?id=com.hvnstudio.share>

## Consoar Inspector

I contributed to the development of the Consoar Inspector app, which streamlines and enhances the process of landfill gas (LFG) inspections. The app simplifies field data collection with innovative map features to ensure compliance with regulatory protocols. Consoar ensures near-instant data processing, making collected data promptly available to inspectors and landfill management personnel. Data can be downloaded raw, viewed as formatted reports, or visualized as actionable insights. Even in areas with poor service, data is safely stored on the device until upload is possible, maintaining consistent data quality regardless of site location.

- Project size : 3 months
- Responsibility : Developer
- Skillset used : Kotlin, Android
- Link Android: <https://play.google.com/store/apps/details?id=com.hats.consoar>

## Universal TV Remote

I developed the Universal TV Remote, a virtual remote control application designed to replace physical remotes. The application features a carefully crafted user interface that enhances usability, making the virtual remote more intuitive and user-friendly than traditional physical remotes. This project involved extensive work in UI/UX design, ensuring seamless interaction and ease of use for users. The Universal TV Remote app exemplifies my ability to create innovative solutions that improve user experience and functionality, showcasing my skills in mobile application development and design.

- Project size : 3 months
- Responsibility : Developer
- Skillset used : Swift, iOS
